

Cheese Production

Goggles and Stand up

1. To a small beaker add 50ml of milk
2. Add 4 spatulas of bacteria (organic yoghurt)
3. Add 10 shakes of rennet
4. Give it a mix with the spatula
5. Label your beaker:

“Name” and Cheese

6. Place beaker in water bath

When instructed

1. Collect beaker from water bath
2. Collect a beaker and funnel from tray
3. Place a piece of material in the funnel
4. Pour cheese mixture into funnel
5. Over the funnel grab the edges of the material
6. Twist gently until no more liquid comes out
7. Open the material, view your cheese!
8. Once finished place the equipment back in the tray
