

Organ Challenge!

In a pair, or trio, draw around the outline of one person using a **BLACK** pen onto paper.

Using different coloured pens, as shown in the box, draw organs onto the body.

Questions to think about:

- What size does your group think each organ is?
- Where does your group think each organ is found in the body?

You need to work as a group and **AGREE** on each organ before you add it to the body!

Digestive System: Oesophagus, Stomach, Small intestines, Large intestines, Rectum

Respiratory System: Windpipe, Lungs

Circulatory System: Heart

Excretory System: Kidneys, Bladder

Nervous System: Brain, Eyes, Ears, Nose

Extra: Appendix, Liver, Gall bladder, Pancreas
